It's a pretty decent read, with lots of good lessons to impart on your eggs. In the section on oven roasting, he suggests you control the heat by placing a piece of aluminum foil loosely over the bottom of the pan (the one used for roasting) to keep moisture from building up. Sounds like a great way to achieve some good results without having your egg shells crack. In the section on poaching and poaching eggs in water,

System Requirements:

For the first time ever, PlayTennis is launching on Oculus Go! (Tennis games are almost always designed with at least a 4K display in mind, so 4K resolution is one of the few things that you can be guaranteed will work) PlayTennis is also launching on Oculus Quest, but the game was designed to work on the Rift CV1, Rift S and Rift Core, so while it will work on Quest, it might not be as smooth and the resolution might not be as good. PlayTennis will also launch on Gear VR later this year
